

# SWEng Group 3 Enterprise

## QA Self Assessment 2

Name: Alex Bennett

Role: Multimedia and Content Manager

**How do you feel the project is going in terms of the whole Group's effort, in particular meeting the first Iteration deadline?**

I think the project is going well. Everybody worked on their bits for the first iteration and it came together well. Everyone knows what they have to do.

**How do you feel the project is going in terms of your individual effort, in particular meeting the first Iteration deadline?**

My workload has been relatively light but will become more prevalent in the upcoming term. So I am looking forward to getting stuck into the rest of the GUI design as well as doing the videos and sounds etc.

**Are you meeting the QA metrics that you set for the QA Manual? (if applicable)**

Metric	Am I meeting it?
Multimedia and Content Cost.	I am meeting the multimedia and content cost metric so far. I have spent nothing on external material at the moment and plan on keeping costs as low as possible for the future.
Errors/faults.	So far there have been no faults found in the designs on the HTML tour or the coding of the app pages. Errors to come will be handled accordingly when they arise.
Website development cost.	This refers to the money spent to develop the HTML tour. At the moment, the HTML tour has only just begun so is not very large and has not incurred any costs. These will be kept as low as possible going forward.

**Do you have any issues with how work is being carried out in the Group? If so, what are they and how would you like them resolved?**

Since we have not met over easter I am assuming everything is fine. So I have no issues.

**Do you have any issues with how meetings are being carried out in the Group? If so, what are they?**

Again, we have had no meetings since the end of term so If meetings stay the way they were after the first QA assessment then I have no issues.

**Do you have any further queries you would like to be brought up in a meeting?**

Nope.

.
