

# Images Module Contract

The following contract will become effective commencing 27th February 2018, with the contract having been signed by the Developer, the Buyer, and by a witness.

This is a contract made between the Developer, **4Learning**:

*The Department of Electronic Engineering  
The University of York  
Heslington  
York, N. Yorks  
YO10 5DD*

and the Buyer, **SG3 Enterprise**:

*The Department of Electronic Engineering  
The University of York  
Heslington  
York, N. Yorks  
YO10 5DD*

for the sale of a Java module for image loading and manipulation.

The module will be compliant with the Product-Wide Standard XML Schema that has been agreed between companies, and include the following features:

- Handling image files
- Time in presentation
- Position on screen
- Size
- Duration image will be displayed for

The module will be compatible with the JavaFX library.

## 1. Agreement Purpose

The Buyer wishes to purchase a licence for the code, enabling access to the above features. The final version of the module code will be completed, ready for handover, by the end of 16th April 2018. The Developer will produce the module code, as above, and is willing and able to do so.

## 2. Payment

The total cost of purchase to be paid from the Buyer to the Developer for this contract will be **£500**.

The payment will be in 3 installments:

- 25% of the total cost (£125) must be paid on the day of signing this contract.
- 50% of the total cost (£250) will be paid upon handover of module code.
- 25% of the total cost (£125) will be paid on acceptance of the code.

### 3. License Agreement

The Developer grants permission to the Buyer to use the provided code, without limitation, and the rights to use, copy, modify and/or merge copies of the module code, royalty free from the date of final payment. The buyer is not permitted to re-sell or re-license the module code at all, except as part of a derivative work. The Developer retains all intellectual property ownership of the software.

The software is provided "as is", without any form of warranty, express or implied, including but not limited to warranties for merchantability, fitness for a particular purpose, and non-infringement. In no event shall the Developers be liable for any claim, damages or other liability, whether in action of contract, tort or otherwise, arising from, out of or in connection with the module code or the use of other dealings in the module code.

The agreement shall go into effect on 27th February 2018, contingent on approval by the Buyer and the Developer.
