

SWEng Group 3 Enterprise

QA Self Assessment 2

Name: Kevin Sum

Role: GUI Developer

How do you feel the project is going in terms of the whole Group's effort, in particular meeting the first Iteration deadline?

Rather well. I feel that we did a good job meeting the deadline and that we're in a good position going forward.

How do you feel the project is going in terms of your individual effort, in particular meeting the first Iteration deadline?

Although I did contribute to the first iteration, I feel that I probably could've done more with the coding. This partly stems from the fact that the university computers don't have android studio, forcing me to work at home and having to collaborate online as opposed to in person during the coding sessions. This can make collaborative coding a bit more troublesome, but at the end of the day, this just means that I need to make a stronger effort communicating.

Are you meeting the QA metrics that you set for the QA Manual? (if applicable)

Metric	Am I meeting it?
Planned coding time compared to actual coding time	Time spent coding is recorded using the timesheets
Errors	Errors found with the app have been fixed quickly and efficiently
Usability of the app	The usability of the app is rather good for the first iteration. Of course, this will improve in future iterations.

Do you have any issues with how work is being carried out in the Group? If so, what are they and how would you like them resolved?

None

Do you have any issues with how meetings are being carried out in the Group? If so, what are they?

None

Do you have any further queries you would like to be brought up in a meeting?

None
