SWEng Group 3 Enterprise QA Self Assessment Sheet

Name: Kevin Sum   Role: GUI Developer

How do you feel the project is going in terms of the whole Group's effort?

Pretty good! I feel that everyone's pulling their weight and doing their part if not more.

How do you feel the project is going in terms of your individual effort?

I feel that I could have contributed a tad more in the early stages, especially with the documentation and the presentation. Although this may be more to do with my role as GUI developer and the fact that I'm not necessarily required to be involved in documentation, finance etc. Regardless, I feel that I could've been a bit more proactive in volunteering and providing an extra hand.

Do you think that you are meeting the QA metrics that you set for the QA Manual (if applicable)

Planned coding time compared to actual coding time: Not assessable

Errors: Not assessable

Usability of the app: Not enough coding done to assess

Do you have any issues with how work is being carried out in the Group? If so, what are they?

No issues

Do you have any issues with how meetings are being carried out in the Group? If so, what are they?

No issues

Do you have any further queries you would like to be brought up in a meeting?

No queries
